Why you need CarPlay Ai Box?

Before and after use comparison

Original car function too boring on drive

VS

Enjoy various video and music App

old and simple original car system very unintelligent

VS

Wireless CarPlay
Android Auto & Android 13.0

Mobile phone navigation screen is small and unsafe

VS

Wireless auto-connect
faster and safer

LED gradient light flashing

You can choose the light colour in the settings screen

In connection:
blue light

Successful connection:
Fading Lights
