Detailed FAQ

- Q: What should I do if the SIM card is not recognized when inserted?
- A: 1. Confirm whether the card insertion method is correct (SIM Card inserted with metal side down, and the notch end is facing inward)
 2. Do not insert or remove the SIM card when the product is turned on. The product must be turned off to remove and insert the SIM card.
- Q: The Netflix display needs to be updated.
- A: When it appears that it needs to be updated, please click the "Cancel" button (Don't update or delete the software preloaded on the product).
- Q: The SIM card insertion is recognized, but the internet connection does not work.
- A: 1. Settings - Network and Internet - APN, manually adjust it
 2. Insert the SIM card into the Android phone and check the information parameters of the APN in the phone. Then in the product settings network and Internet - APN - right upper corner "+" sign, add APN parameters (add according to the parameters in the mobile phone)
 3. If you need a video tutorial of the operation, please contact the store customer service directly.
